3. Please confirm your ADSL line details.

3a. Type of ADSL Line: Please check (√) one.

Type 1*	<input type="checkbox"/> ANALOG <input type="checkbox"/> ISDN	Phone Number () -
Type 2	<input type="checkbox"/> Customer will use a dedicated analog line for ADSL service (voice services are not possible). (This line is requested by GOL so please do not contact NTT for this.) If you have a phone line please complete 3b . If not go directly to 3c .	

* Select "Type 1" if you want to use your current analog telephone line with your ADSL service, or to convert your ISDN line to an analog line. Any changes made after your application has been submitted will be billed accordingly so please be sure of the line type that you want.

3b. Name of Registered Line Owner: Please provide this information for identification purposes regardless if you are applying for Type 1 or Type 2. If you do not currently own a phone line, please proceed to [3c].

Please write the name **exactly** as it is recorded on NTT records. To confirm, please contact NTT (Japanese 116, English 0120-364-463). The start of service will be delayed if this name is not provided to us in the same language and spelling as to match with NTT records.

3c. For applicants of Type 2 ADSL lines: To verify your name and address please fax a copy of your alien registration card or NTT billing statement with this application to 03-5276-5325.

4. Installation Location.

Check (√) here if the installation address is the same as the address written above.

If different from the main address above, please write below:

Postal Code (〒 -)
Address:
Name:
Phone/Fax Number ()

5. Modem Installation: Onsite installation is available through a FUSION GOL approved IT consultant in the Kanto area. Please contact the FUSION GOL Customer Center for more details.

6. Payment Method: ADSL is only payable by credit card or automatic bank transfer.

For IP-phone applications, we accept ONLY credit card.

Please check (√) your preferred method of payment.
